The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Continuation of 3. Applicant's reply has overcome the following rejection(s): New matter objection and rejection

Continuation of 5. does NOT place the application in condition for allowance because: It is not persuasive for overcome the 112 1st paragraph scope of enablement.

**Advisory Action**

The response to the final action filed on October 12, 2004 under 37 CFR 1.116 has been acknowledged. The request of reconsideration has been considered. However, it is not persuasive to overcome all outstanding rejection and place the application in condition for allowance.

For purpose of appeal, the status of the claims is as follows:

**Allowed claim(s): 26, 30, 31, 38-39 and 47-49 (If applicants cancel the rejected claims).**

**Rejected claim (s): 42-46 and 50-54.**

***Claim Rejections - 35 USC § 112***

Claims 42-46 and 50-54 are still rejected under 35 U.S.C. 112 2<sup>nd</sup> paragraph on the same grounds as previously stated in the Office Action mailed 08/012/2004.

Applicants' argument has been fully considered ; however, it is not found persuasive. While some person skilled in the art later demonstrate some TARC antibody can reduce the allergic reaction, it does not support the broad scope of claims 44-46, and 53-54 that tread on any or all TARC antagonist can be used for palliating any or all allergic reaction. The specification does not provide any evidence to support the broad scope of claims 44-45 and 53-54 encompassed. Especially, applicants admitted that monoclonal antibody against TARC were not identified in the specification when the current application was filed. How a person skill in the art to practice the invention when the claimed subject is still uncertain existed.

Therefore, Applicants are still suggested to cancel the non-allowable claims 46-46 and 53-54, and place the application in condition for allowance.
